Buzz Clic & his band of Akron, Ohio, misfits. There's 4 songs here, restored & remastered  
from the original studio master tapes – all crude raw songs w/a true "street" quality dealing  
w/the seedier side of life. The songs have a sound that Todd Killings of Victim Of Time  
described as "a top notch find in the vastly unpopular world of Midwest bad glam-punk in a  
pre-Ramones America that is a quality recording of a drunken Quaalude party – and can  
stand on it's own with anyone else hitting their stride in 1972; it's heavy, but not metal,  
crazed, but not psychedelic, punk but not prog, and even dumber than The Stooges" A

**DEVIL'S KITCHEN** Same Lysergic Sound Distributors 2011 The 3<sup>rd</sup> release on  
our label & the first release by the band that's perhaps the best of the "forgotten"  
psychedelic bands from the legendary San Francisco scene of the late 60's. This heavy  
guitar-powered 4 piece band played on a regular basis at all the major venues in The Bay  
Area in the late 60's & became the house band at Chet Helms' famous Family Dog Ballroom.  
There's 8 original unreleased heavy, acid-drenched blues psych tunes here w/snakey leads &  
roaring fuzz by guitarist Robbie Stokes. We were able to make a deal w/the band and  
obtained the orig. master tapes that were originally presented to Mercury Records in 1968  
(yes, they were offered a contract which they promptly turned down on the advice of their  
buddy, Jerry Garcia). Limited to 1000 copies & there are only a few remaining. This includes

**THE GRAVEYARD FIVE** Same Lysergic Sound Distributors 2013 We'd never offered a 45 in any of our catalogs before we reissued this legendary garage single. This is our authorized, restored & remastered reissue of one of the rarest garage 45's ever pressed into wax. Truly, one of the rarest 45's in the world, there are only a handful of original copies known to exist & have sold for more than \$4700 on the open market ! This legendary 45 comes from Northern California & is a exercise if fuzz guitar reverb-laden excess, non-stop. The record is shrouded in the supernatural, circumstance-wise with a legendary backstory. Recorded in 1968, this is a true masterpiece of 60's garage rock that we made available for the first time as a reissue. This is a limited pressing of only 500 copies that will not be repressed. There are literally only a handful of these left. Plain sleeve MINT vinyl 10.00

**THE GRAVEYARD FIVE** The Graveyard Theme/The Marble Orchard Stanco 1968 This 45 is one of the true "holy grails" of the garage rock collector world and number 11 on the G100 Collectible U.S. Garage 45's List. Truly, one of the rarest 45's in the world, there are only a handful of original copies known to exist and they have sold for more than \$4500 when they've come on the market. An exercise in fuzz guitar excess! **THIS IS AN ORIGINAL 1968 PRESSING AND THIS COPY WAS USED TO MASTER THE 2013 REISSUE.** The labels & vinyl grade visually at VG(+) to VG+. The vinyl plays superbly with almost no noise whatsoever & has been played for several of the top 45 experts in the U.S. to verify sound quality. OFFERS

Has male - female vocals that are pretty good. A band of progressive 60’s activists (even a faculty member included) having fun on an album that was undoubtedly pressed in miniscule numbers. Sounds like a mix of The Fugs, Jim Kweskin & The Charlatans. This has 3 insert sheets with bios of the band members. Paste on cover has a picture of Giuseppe Garibaldi. **RENACIMIENTO** Same no label 1978  
A MEGA-RARE ALBUM that we here at LSD actually discovered about 15 years ago. It's  
primitive Mexican Jesus garage rock, recorded by a young American missionary living in  
Mexico at the time and his Mexican backup band. It has a great homemade sound –  
sometimes garage, sometimes psych & some-times lyrical with great guitar the common  
theme. There's 10 original cuts, including several with thick, fat crude fuzz. Instrumentation  
consists of bass, drums, organ, vocals and what sounds like synth on 1 track. The album was  
recorded in Mexico & all lyrics and liner notes are in Spanish. Unless you understand  
Spanish, you'd be hard-pressed to recognize this as Jesus music. Ken Scott describes this  
album in his 3rd edition of "The Archivist" as ludicrously rare! Only a few copies are known  
to be in circulation and only a couple have ever been offered on the internet – at least one  
of those copies was purchased from us. Rich Haupt, the guru behind the Rockadelic Label,  
rated it an 8.5 on a 10 scale. We had a small number of these a few years ago & sold them  
out almost overnight. We were recently able to acquire a small number of SEALED COPIES of  
this rare record from the source & are offering them here again for what will probably be a  
limited time - - this is in Pokora's newest 7001 book at a "2". ORIGINAL & STILL SEALED

**ST. ALBERT'S DREAM** Same Lysergic Sound Distributors October, 2013. The  
sixth release on our own label - - this is a limited edition vinyl-only hand numbered pressing  
of 800 copies that's one of the heaviest fuzz psych garage compilations ever pressed;  
psychedelia with an acid inspired sound throughout. There's 11 extra-heavy cuts, originally  
recorded from 1968 to 1972 by 11 different very obscure bands from all over the U.S. All  
tracks are authorized, restored and remastered from various sources, including unreleased  
master tapes & newly discovered acetates. None of these tracks have previously been  
comped on vinyl anywhere. These unknown bands include ORACLE, WHEATRIDGE, the  
funereal organ and sludge guitar of GREYLOCK MANSION, a 7 minute Hendrix-inspired  
space fuzz anthem by FROZEN SUN and seven more similar unknown bands that leave you  
with a record full of acid-drenched trippy lyrics, swirling organ, spacey effects and heavy  
guitar with tons of fuzz and thumpin' wah-wah. The wildly colorful cryptic psychedelic cover  
is a brother to Cream's "Disraeli Gears" or Golden Dawn's "Power Plant", obviously over-the-  
top. Was given a great review in issue # 37 of Shindig! Magazine and ended up as the 23<sup>rd</sup>  
highest rated album in 2013 on the popular "Rate Your Music" web site. Very few left!

Recently discovered 1972 teen soul-funk private press mega-rarity from rural New Mexico.  
Pressed in very small numbers, this previously unknown gem is a very accomplished mix of  
smooth gliding soul and up-tempo funk, complete with swirling Hammond organ and mellow  
harmonies to go with the fuzz and funk guitars. At the album's core, however, beats the  
heart of an adolescent small town garage rock combo. This six piece teen group, led by Rick  
Chavez and the smooth vocals of Ray Williams, features nine very catchy original tunes to  
go along with their very own funky version of the classic, "Bo Diddley". The great music on  
this authorized reissue has all been restored and re-mastered and was never offered as a  
reissue prior to this limited vinyl pressing. We have also restored the original hand-drawn  
outsider psychedelic cover art. With only a few original copies known to exist at this time,  
this was a great find and an absolute "must have" for the collector of rare soul-funk-garage  
vinyl.                      **MINT UNPLAYED**                      **19.00**
