WORLD Opus 1 Lysergic Sound Distributors 2011 The 4th
release on our label; this is a recently discovered Latin teen soul funk rock private press from
Gallup, N.M., originally released in very small numbers in 1972. It's an accomplished mix of
smooth gliding soul & up-tempo funk, complete w/ swirling Hammond organ, mellow
harmonies and some fuzz to go w/ the funk guitars. A true adolescent small town garage rock
combo. This authorized release has been restored & remastered as has the original hand-
drawn outsider psychedelic cover art. Only a handful of original copies of this record are
known to be in the hands of collectors & mint copies have sold for as much as \$1500.00 !

"wasted" private Arizona loner country folk rock. Haunting electric rock with a real desolate
sound, recorded out in the middle of the desert. Brother Doug was on drums & there's some
fat fuzz by brother Link Wray. Although not credited on the album, Mike Fiems did much of
the engineering on this recording a couple years before he recorded his rare "I Would Dream"
album on the same label. "Wasted" was only sold at local gigs, not even in local stores. This
continues to soar in demand & is highly sought after VG+(+)/VG++ 425.00 **SOLD 10/27/12**
